However, it shall not relieve the Seller of any obligation, duty or liability attributable to the Seller under the contract.

18. Fall Clause. The price charged for stores supplied under the contract by the Seller shall in no event exceed the lowest prices at which the Seller sells the stores or offers to sell stores of identical description, under the same terms and conditions, to any entity/ agency including the Purchaser during the period or until the performance of all Supply Orders placed during the currency of the contract is completed. If at any time, during the said period, the Seller reduces the sale price, sells or offers to sell such stores to any entity/ agency at a price lower than the price chargeable under the contract, he shall forthwith notify such reduction or sale or offer of sale to the purchaser/ contracting authority and the price payable under the contract for the stores shall stand correspondingly reduced. The provisions of fall clause shall, however, not apply to 'Exports/ Deemed Exports' by the seller/ supplier and Sale of goods such as drugs, which have expiry date.

19. Risk & Expense Clause:-

19.1. Risk and expense purchase clause may be included in the RFP and the contract, if considered necessary. Risk and Expense purchase is undertaken by the Procuring Entity in the event of the seller failing to honour the contracted obligations within the stipulated period and where extension of DP is not approved. While initiating risk and expense purchase at the cost and expense of the seller, the Procuring Entity shall satisfy himself that the seller has failed to deliver and has been given adequate and proper notice to discharge his obligations. Such risk and expense purchase must be contracted within six months from the breach of contract. The seller shall be liable for any loss which the Procuring Entity may sustain on that account. In other words, whenever risk and expense purchase is resorted to, the seller is liable to pay the additional amount spent by the buyer, if any, in procuring the said contracted goods/ services through a fresh contract/ local purchase/ etc., i.e. the defaulting seller has to bear the excess cost incurred as compared with the amount contracted with him. The manner and method of such procurement shall be at the entire discretion of the Procuring Entity, and it shall not be necessary for the Procuring Entity to notify the seller of such procurement.

19.2. Risk purchase at the cost and expense of the seller may not always be a practical proposition as it may not be feasible to enforce recovery without legal action. This clause is rarely invoked in case of import contracts for this reason. In cases where the item is of proprietary nature or there is only one qualified firm to supply the items and there is a remote possibility of procuring the same item from an alternative source, it is imperative that instead of having risk and expense purchase clause, the contract has a performance guarantee clause to cover any such default. Hence, due care must be taken while taking a decision to include the risk and expense purchase clause in a RFP and the contract.

20. Item delivered will be inspected by board of officer for fitness and acceptance.
