1. Reverse Auction would be conducted amongst first 50% of the technically qualified bidders arranged in the order of highest to lowest. Number of sellers eligible for participating in RA would be rounded off to next higher integer value if number of bidders is odd (e.g. if 7 bids are technically qualified, then RA will be conducted amongst L-1 to L-4). In case number of bidders are 2 or 3, RA will be between all without any elimination. If Buyer has chosen to split the bid amongst N sellers, the number of sellers taken to RA round will be N. In case Primary products of only one OEM are left in contention for participation in RA by a seller qualifying for RA, the number of sellers qualifying for RA would be increased to get at least products of one more OEM (through its reseller) if available. Further, if bid(s) of any seller(s) eligible for MSE preference is / are coming within price band of 20% of non MII L-1 seller shall also be allowed to participate in the RA process.

Special terms and conditions-Version:7 effective from 09-09-2026 for category Entry and Mid Level Des

1.

1	Category Specification / MeitY Model Technical Specification / ATC Restrictions	The category has been created in accordance with the Model Technical Specification issued by the Ministry of Electronics and Information Technology, Government of India, W-43/4/2020-IPHW dated 19.08.2024 and is based on the parameters specified therein. Buyers shall not prescribe, through Buyer Added ATCs, any technical requirement which restricts or overrides the Category Specific General Terms and Conditions (GTC) shall apply according to the GTC. Each supplied Device shall bear a unique device serial number (UDSN) identifier traceable to the OEM. The Buyer/Consignee shall be responsible for the authenticity of the supplied product including the configuration details on the website.
2	Product Verification	Buyers shall not prescribe a requirement for embossing, engraving or any other method to verify the OEM name/logo on the motherboard or any internal component. There shall be no mandatory requirement that the OEM of the device shall be a Microsoft Device Partner or hold any specific Microsoft authorization. If an Operating System other than Microsoft Windows is offered, no specific authorization from the concerned Operating System publisher/publisher is mandated.
3	Requirement of OEM Logo	Where Microsoft Windows is supplied, it shall be a genuine, legal and activated copy of the Windows edition/version declared in the category specification. It shall be obtained through a licensing or distribution mechanism mandated by the OEM. Where any other Operating System is supplied, it shall comply with the licensing terms and conditions of the concerned Operating System publisher/publisher wherever licensing is applicable.
4	Operating System - OEM/Publisher Status	
5	Operating System - Licensing	

6	Operating System - Verification	Where Microsoft Windows is supplied pre-installed, the Buyer/Consignee shall verify that the supplied Windows Operating System is genuine and is supplied through the OEM, i.e. Microsoft. A valid digital licence or any other verification mechanism permitted by Microsoft for the supplied device shall be acceptable. Where the Operating System is supplied, similar verification of licence authenticity and activation status shall be required only where the concerned OEM or publisher/provider provides a device-level or equivalent verification mechanism. Where no such verification mechanism is provided, this requirement shall not apply. The requirements relating specifically to Microsoft Windows licence verification shall apply where Microsoft Windows forms part of the device configuration. Where an Operating System other than Microsoft Windows is supplied, applicable licensing requirements of the concerned Operating System shall be complied with, and verification of licence authenticity shall be required only where such verification is supported by the concerned publisher/provider.
7	Operating System - Applicability	
8	Operating System-specific Certification / Compatibility	Hardware compatibility certificate prescribed by a particular OEM or publisher/provider may be requested by buyers.
9	USB Port Declaration / Higher Interface Standard	Each physical USB port shall be declared only once under the highest generation supported by that port. The same physical port shall not be counted for multiple generations/types merely because of backward compatibility. A higher-generation version of a prescribed USB/interface shall be offered where it meets or exceeds the functionality and performance of the prescribed standard and complies with all other Category requirements.
10	Warranty	The warranty applicable to the supplied Device shall be as specified in the product and reflected in the resultant contract. The applicable warranty shall be verifiable through the OEM website, OEM customer support facilities or a warranty certificate/tag provided by the OEM. Installation requirements, wherever applicable, shall be specified in the Installation, Commissioning and Testing (ICT) clause. Where stipulated in the bid, the Seller shall be responsible for installation of the system and for demonstrating its satisfactory functioning to the Buyer's authorised representative.
11	Scope of Installation	In the case of Direct Purchase and L1 Purchase, installation of the Device by the Seller/OEM is mandatory. Installation shall be limited to the supplied computer system and accessories. Installation of separately procurable software such as antivirus, productivity software, etc., unless such software forms part of the Device configuration through an appropriate GeM category.
12	Buyer/Consignee Obligations for Installation	Where installation is included in the resultant contract, the Buyer/Consignee shall provide reasonable access to the installation location and make available site infrastructure, including power supply, networking and other facilities. Requirements not forming part of the Seller's contractual scope, such as site passes, where required, shall be facilitated by the Buyer/Consignee. Before acceptance and generation of CRAC, the Buyer/Consignee shall ensure that the supplied device conforms to the contractual configuration, quantity and warranty requirements and is free from physical damage or defects. The supplied product shall be new, unused and in original packaging. The Buyer/Consignee may verify the packaging, supplied accessories and the installed operating system where applicable, unique device serial number and the contracted configuration and applicable warranty.
13	Acceptance of Supplies	
14	HDD/SSD Storage Retention	Where required on account of information-security or data-retention requirements, the Buyer may prescribe an appropriate contractual condition under the procurement (via bids) regarding retention of storage media such as HDD/SSD in the supplied device.
15	Availability of Monitor	Supply of the monitor shall be governed by the applicable Category requirements under the "Availability of monitor". Any specifications or requirements relating to the monitor shall apply only where a monitor forms part of the contracted configuration.
