2. **Liquidated Damage (LD)**. If a seller fails to deliver on time, the buyer can recover a pre-agreed comp ensation. The standard rate is 0.5% of the items price per week, capped at 5% (or 10% for inordinate delay s).

3. **Termination**. The buyer has the right to end the contract if the seller defaults, becomes insolvent, or if a "Force Majeure" event (like a disaster) lasts more than 90 days.

4. **Force Majeure**. This clause protects both parties from liability if extraordinary events beyond human c ontrol (e.g. Natural calamities, war, or riots) prevent them form fulfilling the contract.

5. **Penalty for Undue Influence**. Part of the Integrity Pact, this is a promise by the seller not to use bribes or inducements to win or execute the contract.

6. **Access to Book of Accounts**. Allows the Buyer to inspect the Seller's financial records if there is suspicion that illegal commissions were paid to agents to obtain the contract.

7. **Non-Disclosure**. Prohibits either party from sharing sensitive contract details, designs or specifications with third parties without consent.

11. **Fall Clause**. Ensures the Seller does not sell the same item to any other entity at a lower price than what is charged in the current contract.

12. **Apportionment of Quantity**. Used to split a large order between multiple vendors (like L1 & L2) if the lowest bidder doesn't have the capacity to supply everything.

13. **Tolerance Clause**. To take care of any change in the requirement during the period starting from issue of RFP till placement of the contract in exceptional circumstances due to reasons to be recorded which were not considered during the planning stage as well seeking AON for the CFA, a plus/minus tolerance clause (upto 25%) may be incorporated in the RFP, reserving the buyer's right to increase or decrease the quantity of the required goods/ services up to that limit without any changes in the terms, conditions and per-unit prices quoted by the seller. While awarding the contract, the quantity ordered can be increased or decreased by the Buyer within this tolerance limit. However, due care is to be exercised while specifying the tolerance limits in individual cases, since higher the limit, more is the uncertainty for the bidders in formulating their prices, which may result in the bidders quoting higher prices.
