   5. Execution of all necessary electrical wiring to ensure correct and safe machine operation.
   6. Proper earthing of all machine components and insulation of electrical wiring to prevent electric shocks during use.
   7. During scheduled service visits under Comprehensive Warranty or CMC (Comprehensive Maintenance Contract), the following activities will be performed:
      - Replacement of pre-filter free of cost during every service visit.
      - Complete cleaning of the water purification system and associated water tank (if applicable).
      - Annual free replacement of all filters, which may include (but are not limited to): RO Filters, Sand Filter, Sediment Filter, UV, UF, Pre-Carbon Filter, Post-Carbon Filter, Mineral Filter, Micron Filter, Dual Media Filter, Anti-Scaling, Alkaline Filter, Absorption Filter, etc., as applicable.
   1. **Responsibilities of the Buyer:**
   1. Facilitate access for the installation team by providing necessary gate passes to the installation site.
   2. Ensure that the machine is installed at an accessible and appropriate location, suitable for both installation and future maintenance.

   1. **Notes to Buyers:**
   1. **For Procurement via BID/RA:**
      - Buyers should create bids with clearly defined values for critical (“Golden”) parameters such as:
        - Type of Water Purification Technology
        - Filtration Capacity (in LPH)
        - Inclusion and specifications of Storage Tank
        - Material and Capacity of Storage Tank (in Liters)
        - Maximum Feed Water TDS (ppm) at which rated LPH, and water quality is assured
        - Guaranteed Output Water Quality
      - Bids lacking specific selections or choosing “Any Value” for these Golden Parameters may be deemed ambiguous and can be cancelled at any time by the competent authority. The buyer will be held accountable if vague specifications lead to reduced competition or increased cost to the exchequer.
   2. Buyers are encouraged to apply comprehensive filters during BID/RA to include all qualifying options that meet or exceed technical requirements. For example, if a Semi-Automatic controller is required, options including Fully Automatic should also be selected. Failing to do so, resulting in restricted

competition or higher procurement costs, shall be the buyer's responsibility.

3. Buyers must refer to Clause 4.xiii.(w) of the GTC. Any additional technical specifications added should not contradict GeM category standards. Contradictory specifications may render the bid invalid and subject to cancellation by competent authority.
4. Before issuing the CRAC, the buyer/consignee must verify all technical specifications and parameters of the installed machine such as filtration capacity, machine type, etc., as per the contract.
5. When sellers provide alternate models under the clause "Other Equivalent/Better Alternate Models Offered," buyers must ensure that these models meet or exceed all original bid requirements before accepting them. This clause is relevant only in BID/RA-based procurement and does not apply to direct purchase or L1 procurement.
