   Buyers shall not prescribe a requirement for embossing, engraving, printing or affixing the OEM name/logo on the motherboard or any internal component.

   3. **Operating System - OEM/Publisher Status**
   There shall be no mandatory requirement that the OEM of the offered device should be a Microsoft Device Partner or hold any specific Microsoft authorisation. Where an Operating System other than Microsoft Windows is offered, no specific partner status or authorisation from the concerned Operating System publisher/provider shall be mandated.

   4. **Operating System - Licensing**
   Where Microsoft Windows is supplied, it shall be a genuine, legally licensed and duly activated copy of the Windows edition/version declared in the catalogue, and the licence shall be obtained through a licensing or distribution mechanism authorised by Microsoft.    Where Microsoft Windows is supplied pre-installed, the Buyer/Consignee shall be able to verify that the supplied Windows Operating System is genuine and duly activated through the OEM, i.e. Microsoft. A valid digital licence or any other licensing mechanism permitted by Microsoft for the supplied device shall be acceptable. Where any other Operating System is supplied, similar verification of licence authenticity and/or activation status shall be required only where the concerned Operating System publisher/provider provides a device-level or equivalent verification mechanism. Where no such verification mechanism is provided, this requirement shall not apply.

8. **USB Port Declaration / Higher Interface Standard**

Installation shall be limited to the supplied computer system and shall not include supply or installation of separately procurable software such as antivirus software, office productivity software, etc., unless such software forms part of the contracted scope through an appropriate GeM category.

11. **Buyer/Consignee Obligations for Installation**
    Where installation is included in the resultant contract, the Buyer/Consignee shall provide reasonable access to the installation location and make available the necessary site infrastructure, including power supply, networking and other site-preparation requirements not forming part of the Seller's contractual scope. Necessary entry/gate passes, where required, shall be facilitated by the Buyer/Consignee.

12. **Acceptance of Supplies**
    Before acceptance and generation of CRAC, the Buyer/Consignee may verify, as appropriate, that the supplied device conforms to the contracted specifications, configuration, quantity and warranty requirements and is free from apparent physical damage or defects. The supplied product shall be new, unused and non-refurbished. The Buyer/Consignee may verify the packaging, supplied accessories/documentation, installed operating system where applicable, unique device serial number/identifier, contracted configuration and applicable warranty.

13. **HDD/SSD Storage Retention**
    Where required on account of information-security or data-retention considerations, the Buyer may prescribe an appropriate contractual condition under ATCs (in case of procurement via bids) regarding retention of storage media such as HDDs/SSDs used in the supplied device.
